WEBBING SLING & CARGO LASHING

FB
Falt webbing Slings

Material : 100% high tensile polyester (PES)

Single ply or double ply

The working load can be distinguished easily by the colour and the width
It is colour coded according to DIN-EN1492-1, also it has capacity stripes on
The sling (each stripe is equal to 1 ton capacity).

It can offer Wide and smooth load surface to the lifted object.

It has high protection against the abrasion and damage.

To avoid being damaged by the sharp objects, it can also be used together
with proper protective sleeve.

Safety factor: 4:1,5:1,6:1,7:1,8:1 is available.

Temperature: -40 C to 100 C

Manufactured according to EC directive 2006/42/EC

webbing width (mm)	Colour coded according to DIN-EN-1492-1	Working load limit with 1 webbing sling					Working Limit with 2 webbing sling			
		Straight lift	Choked lift	Lift in different angle			Straight lift	Choked lift	Straight lift	Choked lift
				0° - 7°	7° - 45°	45° - 60°				
		1	0.8	2	1.4	1	1.4	1.12	1	0.8

300	WLL12T	12000	9600	24000	16800	12000	16800	13440	12000	9600

⚠ CAUTIONS

Do not exceed working load limit

Prevent shock-loading.

Where selecting a sling it is very important to consider the angles at Which the sling will be used.
slings are subject to cutting when lifting items with sharp edges. In this case always use wear sleeves.

do not use a damaged sling.

Never make knots in a sling.

Never drag a sling from underneath a load that is resting on it.

Chemical active environments can affect the strength of slings.

Inspect slings weekly or more frequently depending on sling use.

Always store slings in a cool dry and dark place when they-are not in use for prolonged periods.

always read and understand the operating instruction before use.
